## Sunday, January 31 at 2 pm **TAXI TO THE DARK SIDE**

Oscar winning director Alex Gibney investigates the torture and killing of an innocent Afghani taxi driver in this gripping probe into reckless abuses of government power.

A disturbing, incisive and compelling documentary thriller, the Academy Award -winning TAXI TO THE DARK SIDE incorporates rare and never before-seen images from inside the Bagram Air Force Base in Afghanistan and Abu Ghraib and Guantanamo Bay prison into the exposure of the administration's "global war on terror"

This stunningly crafted narrative demonstrates how this one man's life and death symbolizes the erosion of our civil rights and how what it means to be an American has changed forever.

**Light refreshments are served.**

Open discussion will follow the showing.  
2007. 106 minutes.
